Hi Jennifer!

I'm so happy to hear from you!

I've been keeping my distance during the election because I didn't want to cause complications for you speaking to a person from the previous Administration.

I'd love to catch up.

With regard to your invitation, for you the answer is always YES.

I can't wait to watch the video.

All the best

Paul

Dear Paul,

In commemoration of EPA's 50th Anniversary, I hope you will join me for a virtual panel discussion on December 15, 2020 from 2:00 – 3:00 PM ET, with your fellow former Office of Research and Development Assistant Administrators. As the moderator I am hoping to engage in a lively and thought-provoking discussion covering topics such as the state of environmental science, the role of science at EPA and across the nation, similarities and differences in strategic approaches to new and emerging issues (what can we learn from the past approaches to help us today?), and finally what do you see as the greatest challenges facing ORD for the next 50 years. I know that your perspective will serve to illuminate the value of and goals for ORD today.

Just to give you a taste of some of the things our scientists have been working on, I'm including a short video our scientists put together for EPA's 50th Anniversary. Enjoy!

RSVP

I hope you can join us. Please RSVP to Pradnya Bhandari (bhandari.pradnya@epa.gov) by November 30th. Once confirmed we will send logistics for your participation.

Thank you and be well!
